

1.0 Purpose

- 1.1 The Board of Directors of Nord Country School recognizes the importance of protecting the rights of students with disabilities and those of their parents/guardians. The purpose of this policy is to ensure compliance with all regulations and laws regarding the identification and education of students with disabilities.

2.0 Individualized Education Program (IEP)

- 2.1 Students with disabilities shall be placed in the least restrictive environment which meets their needs. The Governing Board provides a full range of educational alternatives to facilitate this placement so that these students may interact with students without disabilities in an understanding, cooperative, and mutually respectful environment. Students shall be placed outside of the regular classroom only when the student's specific needs cannot be met in that setting.
- 2.2 Upon the identification of a student's disabilities, the Administrator or designee shall appoint an IEP team. The IEP team shall consider the student's needs, determine the content of his/her IEP, and make placement decisions. Students and parents/guardians shall have the right to participate in the development of the IEP, in accordance with law.
- 2.3 Students and parents/guardians shall have the right to approve the student's placement in a special education program, and written consent shall be obtained before any such placement is made, unless a due process hearing officer authorizes the placement. Once an IEP team has determined an appropriate placement with parent/guardian approval, that placement remains in effect until the parties agree otherwise or a due process hearing officer so orders.
- 2.4 At the beginning of each school year, the Charter School shall have an IEP in effect for each enrolled student with a disability.

3.0 Procedures for Identification of Individuals for Special Education

- 3.1 A student shall be referred for special education instruction and services only after the resources of the regular education program have been considered and used where appropriate.
- 3.2 All referrals from school staff shall include a brief reason for the referral and describe the regular program resources that were considered and/or modified for use with the student, and their effect.
- 3.3 Within fifteen (15) days of a referral for assessment, the student's parent/guardian shall receive a notice of parental rights and a written proposed assessment plan explaining the types of assessments to be conducted and stating that no IEP will result from the assessment without parental consent. The fifteen (15) day period does not include days between the student's regular school session or term or days of school vacation in excess of five (5) school days unless the parent/guardian agrees in writing to an extension.

- 3.4 Upon receiving the proposed assessment plan, the parent/guardian shall have at least fifteen (15) days to decide whether or not to consent to the assessment. The assessment may begin as soon as informed parental consent is given.
- 3.5 Informed parental consent means that the parent/guardian:
- 3.5.1 Has been fully informed of all information relevant to the activity for which consent is sought, in his/her native language or other mode of communication; and
 - 3.5.2 Understands that the granting of consent is voluntary on the part of the parent/guardian and may be revoked at any time;
- 3.6 Personnel assisting the student shall prepare a written report of assessment results which specifies:
- 3.6.1 Whether the student may need special education and related services;
 - 3.6.2 The basis for making this determination;
 - 3.6.3 Relevant behavior noted while observing the student in an appropriate setting;
 - 3.6.4 The relationship of the student's behavior to his/her academic and social functioning;
 - 3.6.5 Educationally relevant health, development, and medical findings, if any;
 - 3.6.6 For students with learning disabilities, whether the discrepancy between achievement and ability cannot be corrected without special education and related services;
 - 3.6.7 Where appropriate, a determination concerning the effects of environmental, cultural, or economic disadvantage; and
 - 3.6.8 The need for specialized services, materials, and equipment for students with low incidence disabilities, consistent with CDE guidelines.
- 3.7 The parent/guardian shall receive written notice that:
- 3.7.1 Upon completion of the administration of tests and other assessment materials, an IEP team meeting that includes the parent/guardian or his/her representative shall be scheduled. At this meeting, the team shall determine whether or not the student is a student with disabilities as defined in Education Code 56026 and shall discuss the assessment, the educational recommendations, and the reasons for these recommendations. A copy of the assessment report shall be given to the parent/guardian.
 - 3.7.2 If the parent/guardian disagrees with an assessment obtained by the school, a parent/guardian has the right to obtain, at public expense, an independent educational assessment of the student from qualified specialists.
- 3.8 In the event of a disagreement regarding assessment, the school shall, without unnecessary delay, either initiate a state due process hearing to show that its assessment is appropriate or pay for an independent educational evaluation. If this hearing results in a decision that the school's assessment is appropriate, the parent/guardian still has the right to obtain an independent educational assessment, but not at public expense. The results of an assessment

obtained at private expense must be considered by the school and may be presented as evidence at a due process hearing.

3.9 Students with disabilities shall be reassessed at least every three (3) years, or more frequently if conditions warrant a reassessment or if requested by the parent/guardian or teacher.
