Nord Country School

BP 6080 – Recycling

1.0 Purpose

1.1 The Nord Country School Governing Board is committed to recycling the materials the Nord Country School uses and to minimizing non-hazardous waste. It is the responsibility of every member of the school community to support these efforts that will protect our environment by conserving resources and preserving rapidly diminishing landfill space.

2.0 Goals

2.1 To create a litter free environment
2.2 To make students aware of the benefits of recycling materials in the school and at home
2.3 To create good habits about recycling paper, bottles & metals
2.4 To encourage students to persuade their parents to recycle materials at home
2.5 To have students and staff think before they throw away waste
2.6 To encourage students to respect the environment

3.0 Scope

3.1 The entire school community is expected to actively participate in Nord Country School's Recycling Program and waste reduction efforts. This involves three distinct activities.

3.1.1 Recycling of paper, cardboard and beverage containers (aluminum cans & plastic bottles).

3.1.2 Source Reduction: This includes but is not limited to making double-sided copies, increased use of electronic mail instead of memos, reuse/resale of surplus furniture, etc.

3.1.3 Recycling yard waste as practical.

4.0 Adoption and Review

4.1 Originally Adopted: 6/8/2011

4.2 Most Recent Revision: 9/27/2017
