CCR Report

Nord Country School's water supply comes from a single groundwater well located at the school site. Water quality is tested regularly by our water system operator. The water quality assurance program is monitored and audited annually by Butte County Department of Public Health. One of the requirements to ensure the health of our water system and our students is the posting of a Consumer Confidence Report (CCR) which itemizes the constituents of our drinking water and the hazards that may exist. This report is posted on our website at <http://www.nordcountryschool.org/documents.html>. If you would rather have a paper copy of this report, please inquire in the school office.
