

Mrs. Nicole Jarmush
Speech Therapist

I received my Master's Degree in Speech-Language Pathology from CSU, Chico in 1999. This is my 22nd year as a local Speech Therapist. I have worked in private practice and school settings. I have been part of the Nord community for the past 9 years.

I absolutely love helping students with communication. My field is extremely diverse and I have had the opportunity to work with infants, children of all ages, and young adults. I have a deep interest and passion for all aspects of language and social communication.

I have been married to my husband, Steve, for 18 years. We have three beautiful daughters, Delia, Emma, and Clara. They are my greatest teachers. I enjoy spending time with friends and family, learning new things, helping others, lounging at the beach, water skiing, and ballroom dancing. I believe life is messy, that we learn through our mistakes, and that kindness really does matter.
