

Mrs. Sheena Sloan
Teacher, Eighth Grade

I graduated from Chico State in 2006 with a Bachelor of Science in Agriculture Science and Education. After completing my teaching credential at Chico State I began my career teaching high school Agriculture Science at Chico High School from 2007-2013. In 2013 I was thrilled to accept a new position at Nord Country school as the Middle School science and agriculture teacher and feel so lucky to teach at such an amazing school.

My family is such a huge influence on me and I love that I get to share my work with my own children. My other jobs include being a wife, mom, and sheep rancher. I am married to Brian and we have three daughters Zoe, Westyn, and Avere. We live in north Chico and have three dogs, three cats, 20 sheep, 13 chickens and a bunny! I am passionate about anything related to agriculture and animals and love sharing this passion with my students. My family and I love the outdoors and spend most of our free time working with the animals, camping and fly fishing. I believe that my students learn best when they are “learning by doing”. Hands-on experiences in and out of the classroom create lifelong learners who crave knowledge.

“Dreams, unlike eggs, don’t hatch by sitting on them.” -Frank Sonnenberg
